Impact: SUCCESS OVER THE YEARS

Fighting

Filed a landmark lawsuit against Meta, YouTube, and Twitter to combat Big Tech censorship.

Led the Save America Coalition with 100+ conservative organizations to oppose the Biden Administration's \$5 trillion "Build Back Better Bill."

Building

Launched the America First Agenda—a 10-pillar policy guide supported by 80% of Americans.

Unveiled the policy agenda at the America First Agenda Summit, attended by 56 Members of Congress, 1,200 guests, and President Trump on his first visit back to Washington, D.C.

Executing

95% of Federal legislative recommendations in the America First Agenda were introduced or passed in Congress. Two key pieces of legislation, the Lower Energy Costs Act (H.R. 1) and the Secure the Border Act (H.R. 2) had significant AFPI involvement and leadership.

Launched 5 state chapters in Georgia, Pennsylvania, Florida, Arizona, and California.

Winning

America First Works supported a historic win for President Trump by mobilizing voters in 47 key counties.

Secured 700+ state legislative wins and helped the U.S. House take bold action to secure the border, protect America from the Chinese Communist Party, thwart the threat of a central bank digital currency, and more.

Led federal and state efforts to stop illegals from voting in U.S. elections.

Convened more than 900 former government officials to prepare policy and management plans to ensure the next America First Administration can govern effectively on Day One.

Governing

Transition Project

Led political appointee trainings for 469 trainees, finalized 161 executive actions, and developed 183 action plans and personnel projects. These plans go deeper than any prior efforts have.

Accountability

Weaponization

Combated the proliferation of rogue, progressive prosecutors by equipping policy leaders with information and solutions to uphold justice and the rule of law, including having APFI's original research on progressive prosecutors used in a Congressional hearing, developing state model policy, and highlighting how the cases against President Trump exemplified broader government weaponization against American citizens.

Safeguard

Election Integrity

Alongside Speaker Mike Johnson, the Center for Election Integrity helped roll out the Safeguard American Voter Eligibility (SAVE) Act, which was successfully tied to government funding in the House's continuing resolution this fall.

In *Arizona Free Enterprise Club v. Fontes* and *American Encore v. Fontes*, AFPI successfully challenged state election rules that violated free speech and unlawfully prevented oversight and accountability for Election Day operations in Arizona. The Arizona Secretary of State must now remove those unlawful provisions from the Arizona Election Procedures Manual.
