

AMERICA FIRST—MILWAUKEE

America's Future is America First

★ **America deserves a better and brighter future**

- Our Nation's policies must prioritize American citizens—NOT stand in their way.
- It's time to restore America's promise, confident in the potential of the American people.

We envision a future of peace, prosperity, and unprecedented opportunity for our Nation through these America First Agenda priorities:

★ **Economic Growth and Energy Independence**

- **Energy Independence and Deregulation:** Implement a comprehensive strategy for American energy dominance and reduce regulatory burdens to enhance prosperity and innovation.
- **Fiscal Responsibility and Tax Reform:** Reduce inflation by curbing excessive government spending and extend pro-growth tax reforms to make taxes simpler, lower, and fairer.

★ **Delivering Peace Through Strength**

- **End Nation Building and Ensure Beneficial Funding:** Stop using military or tax dollars for nation-building and tie federal funding to clear objectives that benefit Americans.
- **Revamp Foreign Assistance and Prioritize Partnerships:** Transform foreign aid into local investments with economic benefits and prioritize alliances with nations that contribute fairly and fight common threats.
- **Align Defense Policies and Maintain Sovereignty:** Strengthen ties with NATO nations meeting their commitments, avoid subordinating national security to multilateral institutions, and withdraw from organizations conflicting with American interests.

★ **Strong Border Security**

- **Reinstate Effective Policies and Finish the Wall:** Reinstate effective policies that reduced illegal crossings and complete the construction of the border wall.

- **Enhance Enforcement and Deportations:** Strictly enforce immigration laws, prioritize the deportation of criminals, and empower Border Patrol agents to focus on securing the border.
- **Implement Stronger Consequences:** Impose consequences for illegal crossings and related criminal activities to deter illegal immigration and uphold the rule of law.

★ **Believing the Best is Yet to Come**

- **Belief in American Potential:** There is unwavering confidence in the potential of the American people to create a future of peace, prosperity, and unprecedented opportunity.
- **Restoring America's Promise:** The commitment is to restore America's promise and build a brighter tomorrow for all. Our Nation's best days are ahead, and together, we can achieve greatness.
- **Optimism for the Future:** Join in the fight to save our Nation. The battle to secure America's future is the noblest fight there is, and with collective support, we will win.

**Together, we will create a better and brighter future for America,
where the best is yet to come.**
