## **STATEMENT: KEN BLACKWELL ON INDICTMENTS ISSUED BY MANHATTAN DISTRICT ATTORNEY BRAGG**

**Washington DC – Ken Blackwell, Chair of the Center for Election Integrity at the America First Policy Institute**, released the following statement on the indictments handed down by Manhattan District Attorney Alvin Bragg:

“This is the single greatest case of judicial interference with an election in American history. Rather than protect the people of New York against out-of-control crime, the District Attorney is focusing his office on the political persecution of a former president and current candidate for president. He is using his office to drive a political agenda against a political candidate, interfering with the political process. It should not be allowed.”
