

TOP AMERICA FIRST ACTIONS TO

DELIVER PEACE THROUGH STRENGTH

The first two years of the Biden Administration saw America's historic humiliation on the world stage and the deterioration of stability and security in places that for decades had seen relative peace.

In the summer of 2021, the Biden Administration botched America's withdrawal from Afghanistan, leading to widespread chaos and a perception of weakness abroad. In February 2022, Russia tested America's resolve by invading Ukraine. Although the Biden Administration and Congress sent more than \$100 billion in assistance to Ukraine, the war continues to drag on without a defined endpoint or clear strategy for success. Communist China has launched many sorties into Taiwan's air defense zone and even had spy balloons cross the continental U.S. North Korea's Kim Jong Un has resumed firing a range of missiles, while Iran continues to pursue its nuclear ambitions and brutally suppress brave, peaceful demonstrators.

TOP AMERICA FIRST ACTIONS TO
**DELIVER PEACE THROUGH
STRENGTH**

1 **Restore the Focus of the U.S. Military**
Our Nation's military must restore its core mission of deterrence and, if deterrence fails, to fight and win our country's necessary wars. Woke training and an anti-American curriculum should be eliminated, and all service members who were terminated for refusing to abide by the COVID-19 vaccine mandate on religious grounds should be immediately reinstated.

2 **Secure the Border & Combat Deadly Fentanyl**
Protect families threatened by an open border that fosters human trafficking and allows cartels to transport lethal opioids into American communities.

3 **Counter the Malign Influence and Threats of Communist China**
Protect Americans from the top nation-state threat they face. The guiding principle of reciprocity should be prioritized along with ending dependence on China for key supply chains, the prohibition of the theft of U.S. intellectual property, and the vigorous support of regional allies and partners.

4 **End the Ukraine War Swiftly**
Enable Ukrainians to defeat the Russian army on the battlefield, thereby forcing negotiations. Doing so will help deter our top nation-state adversary—China—and restore focus on the urgent threats facing Americans. Congressional oversight over all U.S. assistance is critical.

5 **Push Allies to Contribute More Toward Collective Defense**
Avoid placing the disproportionate burden of collective defense on American families.

6 **Address Growing Threats from North Korea**
The destabilization of the Korean Peninsula has increased threats from North Korea under the current administration. North Korea's missile and nuclear programs must be addressed.

7 **Restore Peace and Stability to the Middle East**
Build on the Abraham Accords that offer a real framework for peace and prosperity for Israel and its neighbors, and work with allies to deter our adversaries. The Iranian regime must be held accountable for its human rights violations, including removal from any international bodies.

8 **Unleash Energy Abundance**
Restore American security and prosperity by reducing inflation, reinvigorating American industry, expanding access to affordable and reliable energy, and withstanding global energy insecurity.

9 **Reinvigorate the American Economy**
Restrain inflation, grow real wages, and restore national prosperity. A prosperous America is more prepared to defend itself and others in the world.

10 **Advance American Interests through Coalitions**
Build consensus with other nations around our priorities while avoiding funding or participating in institutions that threaten them.
